GUIDE TO SHORT-TERM IT CERTIFICATION PROGRAMS

LAND AN IN-DEMAND CAREER IN CYBER SECURITY OR IT.

IT skills are in high-demand across the country. Industry certifications and software-specific credentials can land you an in-demand IT career without a two-year degree through individual and customized training programs.

At TCC, you can prepare to advance in or enter the workforce through paths that include cyber security, networking and technical support roles with curriculums that give you a comprehensive foundation in all the skills you need. Covered by the cost of all these programs are all books and materials, online labs, and exam vouchers.

PROGRAMS

COMPTIA A+

CompTIA A+ exam is a globally recognized industry standard for establishing an IT career. This certification provides a different approach to define competency in operational procedures including basic disaster prevention, recovery, and scripting basics and a greater dependency on networking and device connectivity. This class is available in person and online.

COMPTIA NETWORK+

This course is intended for entry-level computer support professionals with a basic knowledge of computer hardware, software, and operating systems who wish to increase their knowledge and understanding of networking concepts and acquire the required skills to prepare for a career in network support or administration. After completing this course, you will be prepared for the CompTIA Network+ certification. This class is available in person and online.

COMPTIA SECURITY+

Gain hands-on expertise in CompTIA Security+ certification exam through course and performance based labs that simulate real-world environments. CompTIA Security+ is an entry-level, international, vendor-neutral credential designed for IT security professionals to identify risk, participate in risk mitigation activities, provide infrastructure, information, operational, and application security. Those interested in working for a Department of Defense contractor must have this baseline certification to meet the DOD 8140/8570 requirement. This class is available in person and online.

CUSTOMIZED TRAINING FOR BUSINESSES

Businesses and corporations can find customized training options for employees through our Corporate Solutions Division. Training covers everything from Microsoft products to cyber security.
